

# The End

## Roadrunner United

Just when you thought it was over  
The sky turned black and we all fell to Earth  
Dead in our tracks  
We were frozen in fact  
Choking to breathe  
Then came the seize  
Wash away impurities  
Wash away all that couldn't beEveryone will be washed away  
Drowning in the hell that we made  
I cannot believe that our end is so nearEveryone will be washed away  
Drowning in the hell that we made  
I cannot believe that our end is so near  
Standing at the end of our world  
Breathing in the chaos behold  
None will be found  
It's all toppling down  
Cities will seethe  
None could believe  
Wash away impurities  
Wash away all that couldn't beEveryone will be washed away  
Drowning in the hell that we made  
I cannot believe that our end is so nearSave me  
Save me from what will  
Engulf this world  
Save us  
Save us from the end  
Save us from ourselves  
Save me  
Save me from what will  
Engulf this world  
Just when you thought it was over  
The sky turned black and  
We all fell to EarthEveryone will be washed away  
Drowning in the hell that we made  
I cannot believe that our end is so near
