

Savior

Skillet

I'm everything you've wanted
I am the one who's haunting you
I am the eyes inside of you Stare back at you
There's nothing left to lose
There's nothing left to prove Surrender your love
It's all you can do, yeah
What you got
What you want
What you need
Gonna be your savior
Everything's gonna crash and break
But I know, yeah, I know
What you got
What you want
What you need
Gonna be your savior Everything's gonna crash and break
Your savior
It's time to redefine Your deophobic mind
Don't hesitate, no escape
From secrets on the inside
There's nothing left to lose
There's nothing left to prove
Surrender your love
It's all you can do, yeah
What you got
What you want
What you need
Gonna be your savior
Everything's gonna crash and break
But I know, yeah, I know What you got
What you want
What you need
Gonna be your savior Everything's gonna crash and break
Your savior
I am the eyes inside
Staring back at you You need, you need me, yeah
What you want
What you need
Everything's gonna crash and break
What you got What you need
Everything's gonna crash and break
What you got

What you want
What you need
Gonna be your savior
Everything's gonna crash and break
But I know, yeah, I know
What you got
What you want
What you need
Gonna be your savior
Everything's gonna crash and break
Your savior
I'm watching you
Cause you need me
Yeah, yeah, cause you need me
I'm watching you
