

# Up All Night

## Suburban Legends

Shake your booty  
Prepare for domination  
I know you'd like me  
I've got quite the reputation Here comes that feeling again  
Out pop my guts now I'm a mess  
Been up all night  
Wondering why  
Things aren't getting any better  
You look so good  
It can't be right  
Tonight lets make our dreams come true It's our little secret  
For your information  
I just can't beat it  
I've got a strong imagination  
Here comes that feeling again  
Out pop my guts now I'm a mess  
Been up all night  
Wondering why  
Things aren't getting any better  
You look so good  
It can't be right  
Tonight lets make our dreams come true Been up all night  
Wondering why  
Can't get up again  
Now I'm thinkin' of you I see you embracing me without a care  
We're weightless floating on the midnight air  
Hold on dear, we're falling now  
I forget which way is down  
Confusion clouding around  
Never wanted anything more than you now  
One step beyond it's over  
Now I regret it  
Was it something inside my mind?  
I know I'll take it  
One step again its not so bad  
I can not fake it  
Desire driving me mad  
I can't contain it contain it... Woo! Been up all night  
Wondering why  
Things aren't getting any better  
You look so good  
It can't be right

Tonight lets make our dreams come true  
Been up all night  
Been up all night  
Been up all night  
Been up all night  
Wondering why  
Things aren't getting any better  
You look so good  
It can't be right  
Tonight lets make our dreams come true  
Been up all night  
Let's make our dreams come true  
Been up all night  
Make our dreams come true  
Been up all night...
