

# Make the World Go Round (feat. R. Kelly)

DJ Cassidy

Na na na na na na na  
Oh ooh oh oh, oh yeah! When I'm going through you seem to know just what to say  
To turn it all around and to put a smile a smile right on my face  
To me you are a present, and I show appreciation  
I would change into positive and brighten up my day  
And we never argued, I can't lose my will do carry on  
I just look at you, 'cause you give me the reason to be strong  
If it wasn't for you, I just don't know where I would be  
So, tonight I'm gonna celebrate your love for me Because,  
It's people like you that  
Make the world go round, yes it is  
It's people like you that  
Make the world go round  
Make the world go round, go round and round  
Whenever I was cold, you just had to keep me warm,  
And you were my shelter in the middle of my storm  
And whenever the mountains can't climb it  
And yet you were out of nowhere to lift me and set me free  
And whenever I thought that I could not go any more  
Girl, you came into my life and you opened up more doors  
And now I don't have to look no more for women when it comes to love  
Cause girl, you a heaven's gift to me sent from up above Because,  
It's people like you that  
Make the world go round, yes it is  
It's people like you that  
Make the world go round, oh yes do It's all I can find  
Someone truly truly real  
A soul so divine  
Our love should not be based on hold up,  
Girl take my hand - girl take my hand  
Cause tonight we gon' show the whole wide world how to dance, oh!  
Leet it blow, bloooooow  
You feel good I feel good  
So hot  
We're gonna step into the world tonight and step into the light  
It goes 1, 2, 3  
Step step step step to the side,  
Step to the left, and step to the right  
Step step step step to the side,  
Step all night, and step to the light  
Step step step step to the side,  
Step to the left, and step to the right

Step step step step to the side,  
Step all night, and step to the light  
Step step step round and round  
We gon' step all night to the funky sound  
Step step step round and round  
We gon' step all night till the roof comes down  
Step step step round and round  
We gon' step all night to the funky sound  
Step step step round and round  
We gon' step all night till the roof comes down Because,  
It's people like you that  
Make the world go round, yes it is  
It's people like you that  
Make the world go round, oh yes do  
It's all I can find  
Someone truly truly real  
A soul so divine  
Our love should not be based on hold up,  
Girl take my hand - girl take my hand  
Cause tonight we gon' show the whole wide world how to dance, ooooooh! Party people  
If you wanna keep the world go round and round now
