

# The Messenger

## 10 Years

If you hear the message  
I'm your messenger  
The way you wish your voice would sound  
So use my infection  
As your favorite weapon Keep coming back for more and more  
What are you waiting for now  
Keep coming back for more and more  
What are we waiting for Come on, come on  
If the end is coming soon  
Feel the spirit in the room  
It's moving right through you  
Come on, come on  
If there's nothing left to lose  
Then what do we have to prove  
Let's spread our wings tonight  
If you are the action  
I'm your reaction  
I'm moved the way you want me to  
So use my fire  
For your burning desires Keep coming back for more and more  
What are we waiting for Come on, come on  
If the end is coming soon  
Feel the spirit in the room  
It's moving right through you  
Come on, come on  
If there's nothing left to lose  
Then what do we have to prove  
Let's spread our wings and Your light, you made it mine  
Your life, you've taken mine  
I'll turn you inside out  
And wear you like a shroud  
I'll turn you upside down  
And stripe you of your crown Come on, come on  
If the end is coming soon  
Feel the spirit in the room  
It's moving right through you  
Come on, come on  
If there's nothing left to lose  
Then what do we have to prove  
Let's spread our wings tonight  
Come on, come on  
The end is coming soon

Come on, come on  
There's nothing left to lose  
Come on, come on  
Feel my spirit in the room  
Come on, come on  
Let's spread our wings tonight
