Shake Your Blood (feat. Lemmy Kilmister)

Probot

Looking for relief in your miserable life
You need some rock and roll
And you better get it right
Got to roll them bones,
Do everything they say
If you're cool, you're the fool.
Make it work everyday. Rock out, do it quick
My, my, my, let it rip
Rock out, feeling good.
Break your heart. Shake your blood.
Out upon the stage, crowd is going wild,
Love to see them women, babe
I ain't in denial.
Make you crazy too. Make you show it out.
Looking good, get some wood
You knew you should, You knew you could Rock out, do it now
My, my, my, show me how
Rock out, make it good.
Break your heart. Shake your blood Want to be a winner, want to be the man.
Want to make yourself insane,
Join up with the band
Want to fall in love, want to make your mark
Want to get out in the storm, want to break
A thousand hearts
Rock out, strike it rich
My, my, my, it's a bitch
Rock out, I knew you could
Break your heart. Shake your bloodRock out, don't you stop
My, my, my, like a rock
Rock out, It's all good
Break your heart. Shake your bloodShake your blood
Shake your blood
Fucking you should
