

Secrets (feat. Sam Fischer)

Opia

We bought this house with head in the heart
The sweat on our backs, my world in your arms
A place to call our own We made a mess, we've come undone
The less we regret, the more that we love
I start to see it, all leads back to you That'll be our secret, so let this pieces
Maybe they keep us close to home
It's not that we need this, but babe our secrets [I'll show you my secrets
They feel like home with you
I'll show you my secrets]
I'll show you my secrets
They feel like home with you
I'm sorry if I'm taking my time but opening up has never felt right
Until you came along
Retrace the tracks, they led me to you
Like steps in the sand, they're fading from view Now they just? reminds me of a secret
Keep them between us
Lately they keep us close to home
Or maybe I need this when I'm at my weakest [I'll show you my secrets
They feel like home with you
I'll show you my secrets]
I'll show you my secrets
They feel like home with you No one gets me like you do, you do
No one gonna love me like you do
No one gets me like you do, no one gets me like you
I'll show you my secrets
They feel like home with you
No one gets me like you do, no one gets me like you
No one gonna love me like you do, no one gonna love me like you
No one gets me like you do, no one gets me like you
I'll show you my secrets
They feels like home with you [I'll show you my secrets
They feels like home with you]
