

Favorite Song

Ben Rector

One, two... Well call me crazy, or you can call me anytime you want
Or call me maybe, 'cause I kinda love that song
Be my Madonna, or Steven Tyler in my dreams
'Cause when I'm with you (yeah)
Well I don't wanna miss a thing I can't help but turnin' you up
And I can't seem to be gettin' enough well
Time after time I hit rewind When I'm low, you turn me on just like
The radio; with every single note
I'm wild and young and free and loud singin'
'Don't Stop Believing', windows down
Well I can't help but sing along
'Cause you feel like my favorite song yeah
You feel like my favorite song
You could be my all star, just like Smash Mouth said you were
Circa summer, maybe 1994? (It was '99)
Be John Bon Jovi, or cool like Johnny Cash used to
Livin' on a Prayer, singing the Folsom Prison Blues I can't help but turnin' you up
And I can't seem to be gettin' enough well
Time after time I hit rewind When I'm low, you turn me on just like
The radio; with every single note
I'm wild and young and free and loud singin'
'Don't Stop Believing', windows down
Well I can't help but sing along
'Cause you feel like my favorite song yeah
You feel like my favorite song
Oh and you keep spinning round in my head
And when it's over play it again and again
And I know every word and note by heart
'Cause you feel just like my favorite song
Ooh turn me on just like the radio
With every single note
I'm wild and young and free and loud singin'
'Don't Stop Believing', windows down
Well I can't help but sing along
'Cause you feel like my favorite song yeah
You feel like my favorite song
You feel like my favorite song
