## **Deep Sleep**

## **Devo**

I've been walkin' in a deep sleep
Sleep walking but I just woke up
From a deep sleep, a very deep sleepI've been runnin' on remote control
In a deep sleep, a very deep sleep
I awoke the moment I was toldThat a smile is just a frown turned around

On the face of a clown with a mean streakIt was a deep sleep, a very deep sleep

I can't remember what I used to know
In my deep sleep, a very deep sleep
Somebody help me now and let me go
Into a deep sleep
Now I just woke up from a deep sleep
SomebodyPush me back now let me go

Into a dream again
To a sleep unlike before

So deep it never ends I've been caught inside a deep sleep Sinking deeper after I forgot That a smile is just a frown turned around On the face of a clown with a mean streak In my deep sleep, a very deep sleep

Sleepwalking as I watch myself
In a deep sleep, it's a deep sleep
I keep pretending that it's someone else
In a deep sleep
Now I can't get up of a deep sleep
I'm in a deep sleep
But I just woke up of a deep sleep
Somebody
