

# Midway

## Sabatón

Send them over the waves, our sentinels  
They report in the news, position of our foes  
This battlefield's been chosen, tactically in advance  
Time to alert our fighters, we're soon in range  
Midway  
We'll meet at Midway  
Naval war  
Calling all men to deck, got to be airborne  
Head out into the sun, descending on our foes  
This is the crucial moment, in the heat of the war  
To fly and hit our targets, down in the waves  
Midway, display their might  
Ordering carriers, admirals at war  
We'll meet at Midway to win the fight  
Tactics are crucial, naval war  
Far from shore, a pacific war  
Bombs are falling from the skies  
It's a bomb run day, it's the naval way  
A blood red sun is on the rise  
Far from shore, a pacific war  
Bombs are falling from the skies  
It's a bomb run day, it's the naval way  
A blood red sun is on the rise  
Midway, display their might  
Ordering carriers, admirals at war  
We'll meet at Midway to win the fight  
Tactics are crucial, naval war  
Midway, display their might  
Ordering carriers, admirals at war  
We'll meet at Midway to win the fight  
Tactics are crucial, naval war
