## BROCKHAMPTON

Today, I'ma be whoever I wanna be  
Today, I'ma be whoever I wanna be  
It's a boy fantasy, it's a girl fantasy  
This is our fantasy, baby boy, boy, boy  
Today, I'ma be whoever I wanna be  
Today, I'ma be whoever I wanna be  
It's a boy fantasy, it's a girl fantasy  
This is our fantasy, baby boy, boy, boy  
Flap, flap, flap your wings, go high  
Go high, go high  
Ride, ride, ride, ride, ride around tonight  
This little town, I wanna say goodbye  
To everybody here 'cause they're all the same  
I hate this place  
And everybody here is all the same  
Life's a disgrace  
Today, I'ma be whoever I wanna be  
Today, I'ma be whoever I wanna be  
It's a boy fantasy, it's a girl fantasy  
This is our fantasy, baby boy, boy, boy  
Today, I'ma be whoever I wanna be  
Today, I'ma be whoever I wanna be  
It's a boy fantasy, it's a girl fantasy  
This is our fantasy, baby boy, boy, boy  
Flyin' on my rocket ship, I'm on an acid trip  
I need another pill, snort and let it drip  
I'm with my white friends, we're gettin' wasted  
Trapped in the suburbs, we suffocatin'  
We get all our drug and medication  
"You came with black folks?" Hoe, your parents racist  
You say they hate me, well, I love them  
We still roll up, we still best friends  
Everybody smilin', I don't see what's funny  
Everybody friends, guess I wasn't lucky  
Family full of athletes, I was kind of chubby  
Shit was never sunny, wrists were sorta bloody  
Lick my wounds with honey, save me for the vultures  
I'm fallin' in the void, I don't know what I discover  
I know I could hear the thunder, I can feel the hunters  
They be preyin' on my hunger  
I won't let 'em make me suffer 'cause  
Today, I'ma be whoever I wanna be  
Today, I'ma be whoever I wanna be  
It's a boy fantasy, it's a girl fantasy  
This is our fantasy, baby boy, boy, boy

Today, I'ma be whoever I wanna be  
Today, I'ma be whoever I wanna be  
It's a boy fantasy, it's a girl fantasy  
This is our fantasy, baby boy, boy, boyOoh, take a moment  
Do you take a moment?  
Do you take a moment?  
Ooh, take a moment  
Do you take a moment?  
Do you take a moment?
