Shoot the Moon

Norah Jones

The summer days are gone too soon You shoot the moon And miss completely And now you're left to face the gloom The empty room that once smelled sweetly Of all the flowers you plucked if only You knew the reason Why you had to each be lonely Was it just the season? And now the fall is here again You can't begin to give in It's all overWhen the snows come rolling through You're rolling too with some new lover Will you think of times you told me That you knew the reason Why we had to each be lonely It was just the season Will you think of times you told me That you knew the reason Why we had to each be lonely It was just the season Song Discussions is protected by U.S. Patent 9401941.
