I See a Victory

Kim Burrell & Pharrell Williams

They'll call it a mystery
But we're gonna call it victory
We'll be writing history
It's gon' be victory
They'll be signs on top of signs
Just so you know the history
It's saying victory is with meOh let them laugh about it
Don't worry what the doubter's saying
Yes it's an uphill battle
But guess who else is playing
The next time ya'll in action
And the Ghost is in the room
Watch you work through the masses
You know that we've been used
Let go, let it be
No matter how deep
I swear just believe
You'll find victory (find your victory)They'll call it a mystery
But we're gonna call it victory
We'll be writing history
It's gon' be victory
They'll be signs on top of signs
Just so you know the history
It's saying victory is with meSo I tallied all my losses
And I turned them into lessons
And what seemed to be less
I turned them into blessings
See, I'm not trying to lose you
But the Spirit is relentless
And when you let go, let Him use you
Then you can be a witness
Let go, let it be
No matter how deep
I swear just believe
You'll find victory (find your victory)They'll call it a mystery
But we're gonna call it victory
We'll be writing history
It's gon' be victory
They'll be signs on top of signs
Just so you know the history
It's saying victory is with meThe Bible says you should pray for nothing
'Cause every week it's gon' be something

You know the devil can't wait to jump in
And complicate the things you trust in
But I know my foundation is solid
And can take some hating
Prayer's gon' be on this space station
On the way to the master's apronThey'll call it a mystery
But we're gonna call it victory
We'll be writing history
It's gon' be victory
They'll be signs on top of signs
Just so you know the history
It's saying victory is with me
