

Rooftops (A Liberation Broadcast)

Lostprophets

When our time is up
When our lives are done
Will we say 'We've had our fun' Will we make a mark this time
Will we always say 'We tried' We're standing on the rooftops
Everybody scream your heart out
Standing on the rooftops
Everybody scream your heart out
Standing on the rooftops
Everybody scream your heart out
This is all we got now
Everybody scream your heart out All the love I've made
I have no regrets
If at all ends now, I'm sad
Will we make a mark this time
Will we always say 'We tried'
We're standing on the rooftops
Everybody scream your heart out
Standing on the rooftops
Everybody scream your heart out
Standing on the rooftops
Everybody scream your heart out
This is all we got now
Everybody scream your heart out We're standing on the rooftops
(Wait until the bomb drops)
But this is all we got now
(Scream until your heart stops)
We're never gonna regret
(Watching every sunset)
We'll listen to your heartbeat
(All the love that we found) [x2] Scream your heart out [x3]
Scream your... Standing on the rooftops
Everybody scream your heart out
Standing on the rooftops
Everybody scream your heart out
Standing on the rooftops
Everybody scream your heart out
This is all we got now
Everybody scream your.
