Living In China

Men Without Hats

They got the red book, they got the new look
All the little people that are living in China
They got the answers to all the questions
le people that are living in China The solution is revolution.

All the little people that are living in ChinaThe solution is revolution For all of the little people that are living in China

They got ping pong egg foo yung

For all the little people that are living in ChinaWhat would Chairman Mao say

If he knew what they're doing to his wife today

What did China do? She ordered out for submarines

Instead of Chinese foodChina fields of rice, modern man

No longer evil, he's a paradise

What did the Chairman want?

A great big wall they could all watch orientals on

They got the red book, they got the new look

The little people that are living in China

They got the answers to all the questions

The little people that are living in ChinaThe solution is revolution

For all the little people that are living in China

They got ping pong egg foo yung

All the little people that are living in ChinaWhat would chairman Mao say

If he knew what his people think of him today

Revolution is out of hand

The gang of four, trying to make it as a western bandChina, what do you need?

You've got everything from your scruffy head to dirty feet

China you want to dance

You're wearing makeup and listening to Adam and the Ants

They got the new look, they got the red book

All the little people that are living in China

They got the answers to all the questions

All the little people that are living in ChinaThe solution is revolution

For all the little people that are living in China

They got ping pong egg foo yung

The little people that are living in ChinaThe solution is revolution

They got the answers to all the questions

All the little people that are living in China

China, living in China

China, living in China

China, living in China
