

Go With It (feat. Chromeo)

Oliver

I feel some type of way when you sit next to me
And I'm not trying to hide it, hide it
You can't control emotions what you said to me
And I'm not gonna fight it, fight it
Check it

I say the words and they come out wrong
I know I shouldn't have left the lights on
The night is young make it last long
Before it ends I might be giving you the best in me
I'm getting caught up in the details
A little nervous because I might fail
Don't want to deal with another el'
But every time I need to tell myself
You gotta roll with the punches
You better go with it, just go with it
You gotta roll with the punches
You better go with it, just go with it

When she give you the curve, you get your feelings hurt
You think she's got some nerve in what you deserve
You gotta roll with the punches
You better go with it, just go with it
And it's alright
And it's alright
It's alright
Go with it, go with it
And it's alright
Go with it, go with it

I'm discombobulated you ain't checking me
But there's no point in lying, am I right?
So I'll get back to you later this ain't phasing me
Your girlfriend's more exciting, I decided
Check it

I say the words and they come out wrong
I know I shouldn't have left the lights on
The night is young make it last long
Before it ends I might be giving you the best in me
I'm getting caught up in the details
A little nervous because I might fail
Don't want to deal with another el'
But every time I need to tell myself You gotta roll with the punches
You better go with it, just go with it
You gotta roll with the punches

You better go with it, just go with it
When she give you the curve, you get your feelings hurt
You think she's got some nerve in what you deserve You gotta roll with the punches
You better go with it, just go with it
And it's alright
And it's alright
It's alright
Go with it, go with it
And it's alright
Go with it, go with it Go with it, go with it
Go with it, go with it
Go with it, go with it
