6th Sense

The Underachievers

[Intro:] Touch, Taste, Sight, Smell, Hearing These are the senses that connect us to the world But are there more than 5 senses? [Verse 1: Issa Dash] Dreaming of things that two eyes can never see Consciousness future levels that he never did Imagine fathomable, but the story only brings An unimaginable trinity to a king Who traded the adversities of sin So he could transcend to a gloriful place He loved the beneficial fruit, so plentiful in taste And rich superficial delusions of a human race (Race) Visions of that world is what keeps the strong alive But I'm immortal, so my soul's never afraid to die A young pharaoh walking amongst these human lives Consciousness is higher, reaching and grabbing my desires The elevated saint creating with his third eye Woke up out of a dream covered in gold like a wristwatch Now watch as I'm at the Fligo steal the top spot I pop like a killer waiting on your doorstop No straps, cause my hard equipment is for combat No rats, finest in my clip, we reinforce that Boss stats, we on our way back we 'bout to change rap Face punt any nigga in our way so keep back They'll soon debate a greatest spittin' shit that niggas cravin Sixth sense, meditate it all a nigga need to make a show go Three smoke, for the sour diesel Reefer, like a fairy out a fuckin' fable Or a ghost, all a nigga missin' is his halo Same flow, don't you niggas think it's time to switch it up Pesos, keep you niggas grindin' like some lame goats You lame goats (No hope) [Hook:]

Sixth sense, nigga, why you talkin' you hopeless And if you only use five you soulless Me and my niggas out a scene from out your dreams Showin' niggas life that he would never would've seen [Verse 2:]

> Woke up in a cemetary full of martians Body carved and cut up like I was spartan Apart from the rays that band music played

Now you're alive free from all the lies Who knew our dreams would be the afterlife Grab the rifle, shootin' at stars is so delightful Rippin' out hearts, no one likes it like I do I do whatever it takes to get the title Of one, we'll jack it in the sun, son You know the devil only when you become one Kush cloud, now all I need is rum fun Hot stoves, grenades, and sun shades My life is abstract, Picassos and potholes Not knowin' they soul showed through glows I overlap these cons, replacin' them with pros, yo Song Discussions is protected by U.S. Patent 9401941.
