Sante Fe

Samantha Crain

Rode that train all day We didn't get a drop of wine to taste Everybody movin' around my place

Like bees in a hive

Like someone famous diedI finally found my common ground

Eyes of rain was comin' down

All your paintings back in mouths

They didn't make a sound

But they got found out

And I'm headin' out to Santa Fe

I look back then I look away

Way that that blue sky fades

Feels like I'm runnin' away

Babe I know you know

Just 'cause I'm back on the road

It don't mean your face don't show

In all my dreams and

Oh I'll be back for youYou know the way I get

When I haven't had my coffee yet

Well that's the way I also get

When I can't get through

It's been a month or months tooAnd I don't live my time like I should

But they're killin' off my childhood

Taking all my heroes babe

One by one

Everyone famous is goneSo I'm headin' back to Santa

I look back then I look away

Way that that blue sky fades

Feels like I'm runnin' away

Babe I know you see

Just how hard it is for me

To unpack my clothes and shoes

And stay right here with you

I don't know how to And it's a hard day

And it's a hard night

And I can't find the way

To make it rightSo I'm headin' back to Santa

I look back then I look away

Way that that blue sky fades

Feels like I'm runnin' away

Babe I know you see

Just how hard it is for me

To unpack my clothes and shoes And stay right here with you I don't know how toI don't know how to Song Discussions is protected by U.S. Patent 9401941. Other patents pending.
