Heaven's Here On Earth

Tracy Chapman

You can look to the stars in search of the answers Look for God and life on distant planets Have your faith in the ever after

While each of us holds inside the map to the labyrinth And heaven's here on earthWe are the spirit the collective conscience

We create the pain and the suffering and the beauty in this world

Heaven's here on earthIn our faith in humankind

In our respect for what is earthly

In our unfaltering belief in peace and love and understanding I've seen and met angels wearing the disguise

> Of ordinary people leading ordinary lives Filled with love, compassion, forgiveness and sacrifice

> > Heaven's in our hearts

In our faith in humankind

In our respect for what is earthly

In our unfaltering belief in peace and love and understandingLook around

Believe in what you see

The kingdom is at hand

The promised land is at your feet

We can and will become what we aspire to be

If Heaven's here on earthIf we have faith in humankind

And respect for what is earthly

And an unfaltering belief that truth is divinity

And heaven's here on earthI've seen spirits

I've met angels

I've touched creations beautiful and wondrous I've been places where I question all I think I know But I believe, I believe, I believe this could be heaven We are born inside the gates with the power to create life

And to take it away

The world is our temple

The world is our church

Heaven's here on earthIf we have faith in humankind

And respect for what is earthly

And an unfaltering belief

In peace and love and understanding

This could be heaven here on earthHeaven's in our heart
