

Stackin

Wiz Khalifa

Its been a long day without you my frien
Don't care if you lean back in front of me
Plus my hotel rooms a presidential suite
Rolling presidential no election
Bought the floor I for the set look like it's residential
Can't just call you got to schedule in or let me know ahead?
My time is money if you talking and I hope it's bout some bread
Ain't nothing like them other niggas
Naah they don't even compare
Got reefer flowing through my body
Money growing out my hair
I wouldn't say I do too much but hate
I do just enough to get by
And I done been a lot of places in my day
But I never been this high
Smoking drinking all this got me thinking
Stacking every dollar that I'm making
Smoking drinking all this got me thinking
Stacking every dollar that I'm making
I smoke, you smoke, we smoke let's smoke away we go
I smoke, you smoke, we smoke let's smoke away we go
I probably took some time off cause I was bored of the game
I probably missed your call cause I was boarding the plane
Or some other shit
Now roll some weed Put some hash in
Light that tree up and pass it
All these clothes in my closet
Like I need all this fashion
And this car that I'm driving'
Made for speed not for crashing
If you smoking I got it
Being brokes not the object ya feel me
I wouldn't say I do too much but hate
I do just enough to get by
And I done been a lot of places in my day
But I never been this high
Smoking drinking all this got me thinking
Stacking every dollar that I'm making
Smoking drinking all this got me thinking
Stacking every dollar that I'm making
I smoke you smoke, we smoke let's smoke away we go
I smoke you smoke, we smoke let's smoke away we go

Smoking weed and rolling weed
Should leave with them and roll with me
I'm in the sky I'm in the clouds
I take my time I break it down
I wouldn't say I do too much but hate
I do just enough to get by
And I done been a lot of places in my day
But I never been this high
Smoking drinking all this got me thinking
Stacking every dollar that I'm making
Smoking drinking all this got me thinking
Stacking every dollar that I'm making
I smoke you smoke, we smoke let's smoke away we go
I smoke you smoke, we smoke let's smoke away we go
