

# Lucid Dreaming

Tinashe

I've been caught up in the moment  
I've been moving state to state  
I'm not sure what's heavier  
What's my mind or on my plate  
But we gonna be okay  
Yeah, we gonna be okay  
I still care about being loyal and I always pay a price  
I won't let 'em take advantage cause I'm way too fucking nice  
No way  
Enough is enough, enough is enough  
I've had enough, I've had enough, I've had enough  
If there's one thing I've learned, it's that it's up to me  
If there's one thing I've learned, it's that it's up to me  
If it's my life then nobody gonna tell me how to live it  
They can't see the way I see it through my eyes  
See nobody gonna know just what they're missing  
'Cause it's my life  
If it's my life, ain't nobody gonna tell me how to live it  
They can't see the way I see it, through my eyes  
See nobody gonna know just what they're missing  
'Cause it's my life  
No time for loving, my boy spazzin'  
My heart cold, but I got warm passion  
I'm not an eagle, but I soar past him  
I got money coming, that's a [?]  
Honestly, I only sorta miss you  
They cool but we more official  
And I act up, but I gas up  
And I'm right beside, I got pouring issues  
Keep to myself, keep it simple  
Keep 'em guessing what I really am  
I skrt off, I'ma skrt 'em  
You go by me when you can't see  
Plain as shit when you can't think  
Neck icy, I'm too anemic  
Dick enjoyed like I'm lucid dreaming  
Lucid dreaming, lucid dreaming  
Lucid dreaming, lucid dreaming  
If a nigga give me one more reason  
Fly away like I'm lucid dreaming Fly away like I'm lucid dreaming  
Lucid dreaming  
Fly away like I'm lucid dreaming

Lucid dreaming  
If there's one thing I've learned, it's that it's up to me  
If there's one thing I've learned, it's that it's up to me  
If it's my life then nobody gonna tell me how to live it  
They can't see the way I see it, through my eyes  
See nobody gonna know just what they're missing  
'Cause it's my life  
If it's my life, ain't nobody gonna tell me how to live it  
They can't see the way I see it, through my eyes  
See nobody gonna know just what they're missing  
'Cause it's my life  
When lucidity occurs the dreamer suddenly realizes that they are dreaming  
And this awareness allows them to control what goes  
The same can be achieved in the conscious world  
The mind can manifest reality  
If it's my life  
They can't see the way I see it, through my eyes  
See nobody gonna know just what they're missing  
'Cause it's my life  
If it's my life  
They can't see the way I see it, through my eyes  
See nobody gonna know just what they're missing  
'Cause it's my life
