

Special

Dwele

Alright! Ladies put your hands high
Fellas reach out to the sky
If you've got someone special in your life, tonight
Ladies put your hands high
Fellas reach out to the sky
If you've got someone special in your life. If you've got somebody,
Not just a warm body
Good at fulfilling all your physical needs
They know what makes you go?
Balance your highs and lows
Sometimes it's even hard for you to believe that
It finally happened for ya
Found someone who adores ya
And really loves you unconditionally
That's how you love them back, with everything you have
I know some people out here know what I mean
When ya special
Alright! Ladies put your hands high (yeah)
Fellas reach out to the sky (yeah)
If you've got someone special in your life, tonight (oh, yeah!)
Ladies put your hands high (and my ladies)
Fellas reach out to the sky (my fellas!)
If you've got someone special in your life. Like when you're at a club, they aint trippin' because
They know you're coming home to be with them (love is love?)
Like when you least expect it,
They surprise you with a present
Out of the blue, for no reason (love is love)
That's only just a few, examples of how you are treated so special
Can't beat it, no?
The trust you have together, it makes the lovin' better
I see, some of ya'll know just what I mean when I say special
Alright! Ladies put your hands high (yeah)
Fellas reach out to the sky (Ohh)
If you've got someone special in your life, tonight (Ohh Ohhhhh!)
Ladies put your hands high (hands up)
Fellas reach out to the sky (to the sky!)
If you've got someone special in your life. (OHH) Alright! Ladies put your hands high (Ladies)
Fellas reach out to the sky (Fellas, please!)
If you've got someone special in your life, tonight (special in ya life)
Ladies put your hands high
Fellas reach out to the sky (yeah)
If you've got someone special in your life. (yeah, yeah) Put your hands where I can see em

Let me know that you believe in what you have
If they're special
Put your hands where I can see em
Let me know that you believe in what you have
If you've got someone special in your life! Alright! Ladies put your hands high (Oh babe)
Fellas reach out to the sky (yeah)
If you've got someone special in your life, tonight (someone special, ladies)
Ladies put your hands high (Fellas!)
Fellas reach out to the sky (YEAH)
If you've got someone special in your life. REPEAT 1x WITH DIFFERENT AD LIBS-
