Crazy Possessive

Kaci Battaglia

I think I'm crazy I think I'm going out of my mindYou call me crazy I thought I saw you touching my guy Are you crazy? Maybe I should take you outside And show you crazy Ohhh I got your crazy A little hazy Maybe I'm just losing my mindI think your shady I know that you've been calling my guy Are you crazy? Now I'm gonna take you outside And show you crazy Ohhh I got your crazy Call my man again and imma you up, and imma you up, and imma you up Touch my man again and imma you up, and imma you up And then you call me your best friend, and then you call me your best friend Call me crazy Everytime that I turn aroundYou want my baby Ohhh but I'm his lady Am I possessive? Just because I'm claiming what's mine Your crossing the line Why are you constantly calling him up To pick you upLet me know now How can you call me your best friend Then turn around and secretly text him You call me crazy Ohhh I got your crazy Call my man again and imma you up, and imma you up, and imma you up Touch my man again and imma you up, and imma you up Call my man again and imma you up, and imma you up, and imma you up Touch my man again and imma you up, and imma you upAnd then you call me your best friend, and then you call me your best friend They calling me crazy They say I'm crazyThey call me crazy They think I'm crazy Ohhh I got your crazy Call my man again and imma you up, and imma you up, and imma you up Touch my man again and imma you up, and imma you up Ohhh I got your crazy Call my man again and imma you up, and imma you up, and imma you up

Touch my man again and imma you up, and imma you up Ohhh I got your crazy
