

# Girl Gang

## Gin Wigmore

Hit hard, 'cause a scandal  
Can't stop, I'm hard to handle  
Don't care if my halo dips  
My rise to this is worth the risk  
Run fast, put up a champion  
One chance to make it happen  
Don't care if my halo dips  
My rise to this is worth the risk  
Work, work, harder, harder  
We work, work for the dollar, dollar  
Work, work, harder, harder  
We work, work  
It's a girl gang  
Boy, you wish you could join  
It's a sure thing  
We're taking over the world  
It's a girl gang  
Boy, you wish you could join  
It's a sure thing  
We're taking over the world  
I got fight, I got heart  
I got the strength to tear it apart  
I got bite, I got brains  
I got to raise some power to reign  
I run, run the high road  
I'm back taking my throne  
I know the patriarch don't fit the part  
What I'm gonna start  
See now, I'm the wild one  
I stole the bones of Brando  
I know the patriarch don't fit the part  
What I'm gonna start  
Work, work, harder, harder  
We work, work for the dollar, dollar  
Work, work, harder, harder  
We work, work  
It's a girl gang  
Boy, you wish you could join  
It's a sure thing  
We're taking over the world  
It's a girl gang  
Boy, you wish you could join  
It's a sure thing  
We're taking over the world  
I got fight, I got heart  
I got the strength to tear it apart  
I got bite, I got brains

I got to raise some power to reign Eh, eh  
Eh, eh  
Eh, eh  
Eh, eh It's a girl gang  
Those boys, they wish they could join  
It's a sure thing  
We're taking over the world  
It's a girl gang  
And boy, you wish you could join  
It's a sure thing  
We're taking over the world It's a girl gang  
Boy, you wish you could join  
It's a sure thing  
We're taking over the world  
It's a girl gang  
Boy, you wish you could join  
It's a sure thing  
We're taking over the world I got fight, I got heart  
I got the strength to tear it apart  
I got bite, I got brains  
I got to raise some power to reign
