Never Wanna Leave You

Pat Benatar

Never could say what I wanna say
Never could do what I wanna do
Never could believe you, if it's true
Never could, never would, you make it so hard
I never wanna leave youI'm always right, you're never wrong
We change the tune but not the song

Over and over

'Til it's done, it's never done, never done You make it so hard

Never wanna leave you

I never wanna leave youMovin' together, comin' apart

You're what I need, I'm what you want

Never could refuse you from the start

Never could, never would, never could

You make it so hardNever could say what I wanna say

Never could do what I wanna do

Never could believe you, if it's true

Never could, never would, you make it so hard

I never wanna leave you

I never wanna leave you

I never wanna leave you

Never wanna leave you

I never wanna leave you

The ver wanta leave you

I never wanna leave you

I never wanna
