

Eden

Scandroid

This Eden! This Eden is our paradise forever! Rebirth, awakened we've only begun
No longer forsaken the two are now one! We are here by design

I am yours and you are mine
Eternally intertwined

This Eden is our paradise forever! This Eden is our paradise forever! Eons behind us not captive
to time

A future before us that we will define!
We are here by design

I am yours and you are mine
Eternally intertwined

This Eden is our paradise forever! This Eden is our paradise... This Eden! All alone and in our
own starlight tonight

We'll traverse the universe tonight! We are here by design

I am yours and you are mine
Eternally intertwined

This Eden is our paradise... We are here by design

I am yours and you are mine
Eternally intertwined

This Eden is our paradise forever!

This Eden is our paradise forever!

This Eden is our paradise forever!

This Eden is our paradise forever! This Eden! This Eden is our paradise forever! This Eden!
