

# Freeze

Jordin Sparks

Hold the pose, a perfect picture  
Just so I remember how you're looking tonight  
Let it go, now the days gone  
Standing in the dark, although we've turned on the lights  
Tonight we will deny, that time is  
passing by  
It's leaving you and I to...Freeze  
A moment, its never been better  
Freeze  
All over, we won't last forever  
You said that you're sorry for pushing me  
But then smiled when I opened my eyes  
I'm gonna  
Freeze  
A moment, while we're together  
Keep the peace, by gones be gone  
Coming up the rain under the life that we've made  
Under here, we're not so soft  
Forgiving the feeling that we put on parade  
Tonight we will deny, that time is passing by  
It's leaving you and I to...Freeze  
A moment, its never been better  
Freeze  
All over, we won't last forever  
You said that you're sorry for pushing me  
But then smiled when I opened my eyes  
I'm gonna  
Freeze  
A moment, while we're together  
Don't stop, gotta know what you got  
There's no second chances in life  
Don't break, gotta give what you take  
With you  
Freeze  
A moment, its never been better  
Freeze  
All over, we won't last forever  
Freeze  
A moment, its never been better  
I Freeze  
All over, we won't last forever  
You looked at me with the truth in your eyes  
And you said it's ok, you can go  
I'm gonna  
Freeze  
This moment, while we're together  
Freeze

A moment
