

# House Arrest

## Sofi Tukker & Gorgon City

This is house arrest  
La da di da di da daI learned how to measure before I knew what was size  
I sang you to sleep, do you like my lullaby?  
La luna de leche, treat your sadness with a smile  
You can't have what's next till you hang with it for a whileThis is house arrest  
Come but wear your Sunday best  
This is house arrest  
La da di da di da da  
I learned how to measure before I knew what was size  
I sang you to sleep, do you like my lullaby?  
La luna de leche, treat your sadness with a smile  
You can't have what's next till you hang with it for a whileThis is house arrest  
Come but wear your Sunday best  
This is house arrest  
La da di da di da daThis is house arrestThis is house arrest  
Come but wear your Sunday best  
This is house arrest  
La da di da di da daI decided not to leave my house and go outside  
I held myself sweetly, made myself a lullaby  
This won't last forever, treat your sadness with a smile  
We can't have what's next till we hang inside for a while  
This is house arrest  
Come but wear your Sunday best  
This is house arrest  
La da di da di da daThis is house arrest  
This is house arrest  
This is house arrest
