

Make a Plan to Love Me

Bright Eyes

I heard you're scheming new pyramids
Another big idea to get you rich
Make a plan to love me sometime soon You said you got a foot in the door
You buy and you sell, you buy some more
Make a plan to love me sometime soon Life's too short
Death doesn't ask
It don't owe you that
Some things you lose
You don't get back
So just know what you have And make a plan to love me sometime soon First you want to ride
off into the Sun
Then you want to shoot straight to the Moon
Make a plan to love me sometime soon When you are young the world is a Ferris Wheel
I know we will grow old it is lovely, still
Make a plan to love me sometime soon Life is Too short
To be a fool
I don't owe you that
Do what you feel
Whatever is cool
But I just have to ask Will you make a plan to love me?
Will you make a plan to love me?
Will you make a plan to love me sometime soon?
