

# Alethea (Bob Harris Session)

[Robin Trower](#)

I make life easy just by laughin'  
I was the first to see the joke  
When they said I'm afraid we are losing  
Don't like the way you gave up hope  
Alethea, Alethea  
Don't let them put the blame on you  
What seems so bad now  
Could easily change for the better I turned away from all that hurt me  
Now just a faded memory  
Ohh get on track sister baby  
Love the love that wants to be  
Alethea, Alethea  
Don't let them put the blame on you  
What seems so bad now  
Could easily change for the better  
Alethea, Alethea  
Don't let them put the blame on you  
What seems so bad now  
Could easily change for the better
