

I've Got Friends

Manchester Orchestra

Dirty on the ground is white on me
I got another one to tell you and another one to make you believe
Pity on the grass, I tried to be
The one you needed when I told you that you wanted something bigger than me I've got friends
in all the right places
I know what they want and I know they don't want me to stay
I said that I've got friends in all the right places
I know what they want and I know they don't want me to stay 'Cause you and I will ride
But when I need you
I need it quickly
In case you never know
I can't play where I'm not supposed to, anyway Dirty on the ground is what I see
I need another reason why I need another reason, tell me to breathe
The dirtier the sound, the best I breathe
I tried to do it all for you, it didn't do anything for me 'Cause I've got friends in all the right
places
I know what they want and I know they don't want me to stay
I've got friends in all the right places
I know what they want and I know they don't want me to stay And you and I will find
That when I need you
I need it quickly
In fact, you'll never know
I've got friends in all the right places
I know what they want and I know they don't want me to stay
I said that I've got friends in all the right places
I know what they want and I know they don't want me to stay
I said that I've got friends in all the right places
I know what they want and I know they don't want me to stay, to stay
I've got friends in all the right places
I know what they want and I know they don't want me to stay, to stay
