Nobody's Hero (2002 Remastered Version)

Stiff Little Fingers

I think it's time we talked this over I think you've taken this too far I never wanted to be different Didn't ask to be nobody's starTry and take control of it 'Cause what you see is what you get Try and take control of it And not meYou say there's talk of revolution, so what's new? You say there's fighting in the air You think that I've got the solutions But do you really think that's fair?Try and take control of it 'Cause what you see is what you get Try and take control of it And not me Don't wanna be nobody's hero Don't wanna be nobody's star Don't wanna be nobody's hero Get up, get out, be what you are You think it's time you took me over To do what you can't do yourself But don't let heroes get your kicks for you It's up to you and no one elseTry and take control of it 'Cause what you see is what you get Try and take control of it And you'll seeDon't wanna be nobody's hero Don't wanna be nobody's star Don't wanna be nobody's hero Get up, get out, be what you are You think you're nobody And I get all the fun But no one is a nobody Everyone is someoneDon't wanna be nobody's hero Don't wanna be nobody's star Don't wanna be nobody's hero Get up, get out, be what you are Be what you are Song Discussions is protected by U.S. Patent 9401941.
