

# Your Love

## Totally Enormous Extinct Dinosaurs

I know my world won't fall apart without you around  
Is my time, is my time to quit you now  
It's all over girl  
(your love)  
My world my world I can't give you, right now  
I'll be fine, I'll be fine, don't you worry  
I'll be in the same world  
(Your love)  
(Can't give it up, no, no, all I ever wanted was to be with you)  
(Feels good)  
(Just right)  
(Don't you leave me now, that the world is so hard)  
I know my world won't fall apart without you around  
Is my time, is my time to quit you now  
It's all over girl  
My world my world I can't give you, right now  
I'll be fine, I'll be fine, don't you worry  
I'll be in the same world
