

Royal Blood (feat. Keiynan Lonsdale)

Louis Futon

Take the weight off your shoulders and roll your mind
Gotta make this feel good (oh yeah)
If you're ready connect with your body tonight
Feel so safe like you should (yeah)
Rest your head upon my chest, I'll run my fingers through your hair
I just want to love you tonight (tonight)
We'll kiss the freedom in the air and breathe it 'til we're unaware
Of the life that makes you feel high
I'm never gon- I'm never gonna leave you
Give me all your dreams tonight
I'm never gon- I'm never gonna leave you (yeah)
You know I'm gon- I'm always gonna treat you
Like you got that royal blood
I'm never gon- I'm never gonna leave you
These connections have said how I've got your eyes
We could fly for so long (yeah)
Feel the sweat dripping close 'cause I've touched your mind
In the crowd but not lost
Rest your head upon my chest, I'll run my fingers through your hair
I just want to love you tonight (tonight)
We'll drink the freedom in the air and letting go of all our scares
You're the vibe that makes us feel right
I'm never gon- I'm never gonna leave you
Give me all your dreams tonight
I'm never gon- I'm never gonna leave you
You know I'm gon- I'm always gonna treat you
Like you got that royal blood
I'm never gon- I'm never gonna leave you
I'm all about you, I'm all about
I'm all about you, I'm all about
I'm all about you, I'm all about
'Cause you got that royal blood
I'm all about you, I'm all about
I'm all about you, I'm all about
I'm all about you, I'm all about
'Cause you got that royal blood
I'm never gon- I'm never gonna leave you
Give me all your dreams tonight
I'm never gon- I'm never gonna leave you
You know I'm gon- I'm always gonna treat you
Like you got that royal blood
I'm never gon- I'm never gonna leave you
