

Thru the Night

Phonte & Eric Roberson

I'm just takin' my time, girl I do it for you
Cause I'm in danger baby, tryna find a way
through

I'm just takin' my time baby this is my truth
One more thing I'm comin' back to you Gotta make it through the night

Oh, I can't wait to get home to you again
Gotta make it through the night

I can't wait to get home to you again
Lady Up in the after-party bein' chased around

One more night gotta hold my ground
Gotta make it through the night

Oh, I can't wait to get home to you again
Gotta make it through the night, Oh

Oh, I can't wait to get home to you again
Oh no To keep the peace and take the edge off of
my deep fears

I get
it

Nah, don't do it, mission abort
These streets ain't a game and it isn't a sport
Better learn how to pass or ya shit'll get
torched

They all campaignin', so run for ya life
Like that y'all (that y'all), like this y'all (this
y'all)

And if you up in the club gettin' too much
love

Phontigallerro so official

Here I go again

Right outside your door

Hey girl let me in

Wait no more

I made it through the night

Made it through the night

Been two months since I've seen ya girl it's
insane

You're the last one on my body baby nothin'
has changed

So many ladies callin' for me lookin' so nice
I'm a man ya understand but with you I wanna
do it right
