

Are You Here? (feat. DMA'S)

The Presets

Setting sail with all my people, won't change now inside
When you love your hearts and all your minds
Deeper now in the stars and cities, left them all behind
I'm with you, love, your hearts and all your minds And I know, and I know it's me
And I know, and I know to be free
'Cause you are something, I am no one
Again and again and again and again, again, again, again
You've been kickin' on in my mind and I've been wakin' up
Are you here? Are you here?
It's just a moment that passed me by and I'm still keepin' up
Are you here? Are you here?
You've been kickin' on in my mind and I've been wakin' up
Are you here? Are you here?
It's just a moment that passed me by and I'm still keepin' up
Are you here? Are you here?'Cause you are something, I am no one
Again and again and again and again, again, again, again You've been kickin' on in my mind
and I've been wakin' up
Are you here? Are you here?
It's just a moment that passed me by and I'm still keepin' up
Are you here? Are you here?
And I know, and I know it's me
And I know, and I know to be free
'Cause you are something, I am no one
Again and again and again
Don't wanna hear it now
And I know, and I know it's me
And I know, and I know to be free
'Cause you are something, I am no one
Again and again and again and again, again, again, again Free, free, free
Free, free, free
