

# Captain

## Frankmusik

Faithful love abandoned  
Search for land we're stranded  
Storms are slowly moving in  
Feel the sun is setting  
No point in regretting  
We might make it on our own  
Cos' we used to know our way back home  
We had a lighthouse  
But will we know which way to turn  
With all the lights out I said whos gonna captain us  
I said whos gonna captain us  
I said whos gonna navigate Through this hurricane  
Sweeping over our fate  
You said you'd keep an eye on those rocks  
I said I'd keep an eye on those rocks  
We said we'd keep an eye on them But we've broken up again Think we need a captain I thought  
we had it figured Holding onto triggers Stand off pointing at our heads You held your ground  
forever But you lost me not so clever You can drown alone I guess Cos' we used to know our  
way back home We had a lighthouse But will we know which way to turn With all the lights out I  
said whos gonna captain us  
I said whos gonna captain us I said whos gonna navigate Through this hurricane Sweeping over  
our fate You said you'd keep an eye on those rocks I said I'd keep an eye on those rocks We said  
we'd keep an eye on them But we've broken up again Think we need a captain I see you sinking  
over everything we say and do Sos' in you're confessin' it ain't helpin Now we falter in the water I  
reach out to you Currents come I don't see you swimming I said whos gonna captain us I said  
whos gonna captain us I said whos gonna navigate Through this hurricane Sweeping over our  
fate I said whos gonna navigate us Whos gonna navigate us I said whos gonna navigate Through  
this hurricane Sweeping over our fate Now we're breaking up again Now we're breaking up  
again Now we're breaking up again
