

# Finley's Lullaby

Bryan Lanning

Oh these little hands  
They don't know what hurt is  
And these little eyes  
They see the world in different colors  
And all I can think about is  
How I can't live without you  
Time is but alone in this hospital room where I see you for the very first time  
And if you ever see me go I hope you'll always know you're mine  
Yeah these little lips  
They don't know what heartbreaks takes  
And these little heart  
It takes the good in everybody  
And all I can think about is  
How I can't live without you  
Time is but alone in this nursery room where I rock you for the very first time  
And if you ever see me go I hope you'll always know oh you're mine, oh mine  
Oh these little hands  
They don't know what hurt is  
And these little eyes  
They see the world in different colors  
And all I can think about is  
How I can't live without you  
Time is but alone in this hospital room where I see you for the very first time  
And though you never see me go I hope you'll always know you're mine
