

She Works Out Too Much

MGMT

"Alright, here we go!"
"Five, four, three, two, and one"
"Are you ready to work out?" "Don't take it the wrong way"
I can never keep up
Sick of liking your selfies
Should've gone with my gut
Maybe I'm in a movie
Maybe I'm out to lunch
But I'm constantly swiping it, tapping
It's never relaxing, I need a new routine
(He's trying)
(She works out too much)
The only reason we never worked out was
He didn't work out
(He's trying)
(She works out too much)
The only reason we never worked out was
He didn't work out enough
(He's trying) "Let's move on to the first step"
"Get on your hands and knees..."
"Come on!"
"Get on your hands and knees"
"Ready? Here we go!" "Welcome to the shitshow"
Grab a comfortable seat
Find me in the front row
Facing the music, anyone can see
(He's trying)
(She works out too much)
(She works out too much, and)
The only reason we never worked out was
He didn't work out
(He's trying)
(She works out too much)
(She works out too much, and)
The only reason we never worked out was
He didn't work out enough
(He's trying) "Remember to drink a glass of water before and after you work out"
"Learn form and shape"
"Stick with it"
"Here we go!" "I'm going off the deep end"
Time to let myself go
Nothing's ever as easy as when

It never begins, the end is just a dream(He's trying)
(She works out too much)
(She works out too much, and-)
The only reason we never worked out was
He didn't work out
(He's trying)
(She works out too much)
(She works out too much, and-)
The only reason we never worked out was
He didn't work out, enough
(He's trying)
(She works out too much)
(She works out too much, and-)
The only reason we never worked out was
He didn't work out
(He's trying)
(She works out too much)
(She works out too much, and-)
The only reason we never worked out was
He didn't work out, enough
(He's trying)
(She works out too much)The only reason we never worked out was
We didn't work out, it never works out
No, it never works out
She works out too much
No, I never work out
(She works out too much)
It didn't work out
No, it never works out"Okay, we're done"
