Beautiful Pain (feat. Sia)

Eminem

I can feel the heat rising Everything is on fire Today is a painful reminder of why We can only get brighter The further you put it behind ya And right now I'm on the inside Lookin' out, 'causeI standing in the flames There's a beautiful kind of pain Setting fire to yesterday Find the light, find the light, find the light standing in the flames There's a beautiful kind of pain Setting fire to yesterday Find the light, find the light, find the light Yesterday was the tornado warning Today is like the morning after Your world is torn in half, you wake And let's wait to start the morning process Rebuilding and you're still a work in progress Today is a whole new chapter, it's like an enormous ass The thunderstorm has passed ya Your weather didn't poke his eyes out With the thorn bush that you Used to smell the roses, stopped to inhale Can't even tell your nose is stuffed So focused on the brightside, then you floor The gas pedal, and hit the corner fast The more asserted, never looking back May hit the curb But everyday is a new learning curve As you, steer through life Sometimes you might not wanna swerve But you have to, to avert a disaster Lucky, no permanent damage 'Cause they hurt you so bad It's like they murdered your ass And threw dirt on your casket But you returned from the ashes And that hurt that you have, you just converted to gasoline And while you're burning the past Standing at inferno and chant I standing in the flames There's a beautiful kind of pain

Setting fire to yesterday

Find the light, find the light standing in the flames

There's a beautiful kind of pain

Setting fire to yesterday

Find the light, find the light, find the lightSo familiarize

With what having to swallow this pill is like

It happens all the time, they take your heart

And steal your life

And it's as though you feel you've died

Because you've been killed inside

But yet you're still alive which means

You will survive

Although today you may weep because you're weak and

Everything seems so bleak and hopeless

The light that you're seeking, it begins to seep in

That's the only thing keepin' you

From leapin' off the motherfreaking deep in

And I'm pulling for you to push through this feeling

And with a little time that should do the healin'

And by tomorrow you may even feel so good

That you're willing

To forgive them even after

All that shit you been put through

This feeling of resilience is building

And the flames are burning

Quick as fire would through this building

You're sealed in

But your fireproof and retardant you withstood it

And as you climb up to the roof

You're just chillin' and you look down

'Cause you're so over them you could

Put the heel of your foot through the ceilingAs time passes, things change everyday

But wounds? Wounds heal

But scars still remaining the same

But tomorrow today's gone down in flames

Throw the match at the passed up placeSo feel the fire beneath your feet

As you barely even perspire from the heat

Exhale deep and breathe a sigh of relief

And as you say goodbye to the grief

It's like watching the walls melt

In your prison cell

But you've extinguished this living hell

Still a little piece of you dies, you screamI standing in the flames

There's a beautiful kind of pain

Setting fire to yesterday

Find the light, find the light, find the light standing in the flames

There's a beautiful kind of pain

Setting fire to yesterday

Find the light, find the light feel the burn, watch the smoke as I turn rising

A phoenix from the flames
Flame of love, we're going to fight the word, fight
Now it feels with these wings that I will flyI standing in the flames
There's a beautiful kind of pain
Setting fire to yesterday
Find the light, find the lightI standing in the flames
There's a beautiful kind of pain
Setting fire to yesterday
Find the light, find the light, find the light:
