

Power to the Peaceful

Paloma Faith

Oh I don't believe in war
No it makes no sense at all
But I can't stop it
And I can't explain the way
People cause each other pain
Yeah it's so selfish
Oh What kind of world is this?
Living in a nightmare when it could be a kiss
Tell me
What kind of world is this?
You deserve it better baby
Sorry it's not better baby
Love is all we need party people
Gotta keep your cool (come on!)
Dance all night
Power to the peaceful
You gotta keep your cool
Come on, come on, come on I know at times it will be hard
And you'll want to fall apart
But I can't stop it
And with money there is greed
And that's the ugliest disease
But I can't help it
Oh oh What kind of world is this?
Living in a nightmare when it could be a kiss
Tell me
What kind of world is this?
You deserve it better baby
Sorry it's not better baby
Love is all we need party people
Gotta keep your cool (come on!)
Dance all night
Power to the peaceful
You gotta keep your cool
Come on, come on, come on
Love is all we need party people
Gotta keep your cool (come on!)
Dance all night
Power to the peaceful
You gotta keep your cool
Come on, come on, come on I wish it could be sweeter
Wish it could be sweeter, baby

I wish it could be sweeter
Just like you
Come on Love is all we need party people
Gotta keep your cool (come on!)
Dance all night
Power to the peaceful
You gotta keep your cool
Come on, come on, come on
Love is all we need party people
Gotta keep your cool (come on!)
Dance all night
Power to the peaceful
You gotta keep your cool
Come on, come on, come on I wish it could be sweeter
Wish it could be sweeter, baby
I wish it could be sweeter
Just like you
