

# Little Fighter

## White Lion

Are you cryin tonight?  
Are you feelin all right?  
I told the world that you were down on your luck  
You were one of a kind  
One who'd never give in  
Even when they put a price on your head  
Has anyone heard the tales you tell  
Or seen the scars you wear  
Did anyone speak up when you fell  
Does anybody care  
Rise again little fighter  
And let the world know the reason why  
Shine again little fighter  
And dont let 'em end the things you do  
And you were one with a cause  
And a reason to be  
You were a fighter for peace on this earth  
And you were never afraid  
You put your life on the line  
And you were always alone out on the sea  
Without a weapon in your hand  
You came to fight a war  
They took your life but didn't know  
That you would never die  
Rise again little fighter  
And let the world know the reason why  
Shine again little fighter  
And don't 'em end things you do  
Are you feelin alright?  
Cause I care, care  
Run along little fighter  
Oh cause I was there beside you  
Never stop believing, so rise  
Rise  
RISE!  
Rise again little fighter  
And let the world know the reason why  
Shine again little fighter  
And don't 'em end things you do  
Rise again little fighter (Don't stop believing)  
And let the world know the reason why  
Shine again little fighter (And keep on moving)  
And don't 'em end things you do  
Yeah, don't let 'em ever end the things you do
