

Drop Top Benz (feat. Lil Skies)

Lil Gnar

[Intro: Lil Skies]

Drop top Benz

Drop top Benz

Drop top Benz

We pulled up in a drop top Benz [Hook: Lil Skies]

Drop top Benz

Pull up in a foreign, it's just me and all her friends

She wanna make a movie so I grabbed the camera lens

All I spend is bands, models up in France

Shake your money maker girl, you know you gotta twerk it

Throw a couple bands up, watch it hit the surface

We gon' make the world shake, do it with a purpose

Drop top Benz, me and all her friends

[Verse: Lil Gnar]

Whip the Panamera, you niggas can't stand us

Diamonds they be dripping, my left wrist look like Atlantis

Made it out the bottom, put that on my momma

It's a rockstar party, come and pop a pill babe

Got some neck up in the foreign, had to hit the killswitch

Lot of young niggas and you know we came to kill shit

Baby girl stop whining, put that molly on your tongue

Never touched a hundred bands, how you judging up

She just wanna eat and fuck but I cannot be cuffed

Getting money everyday that be my mission

Run it up so catch me flexing in the picture

In the picture

G Wagon with the red cut you can't get it inside

Drop top Benz got your bitch like oh my god

Off the gas and I'm seeing stars

Bust down, that's a Audemars

[Hook: Lil Skies]

Drop top Benz

Pull up in a foreign, it's just me and all her friends

She wanna make a movie so I grabbed the camera lens

All I spend is bands, models up in France

Shake your money maker girl, you know you gotta twerk it

Throw a couple bands up, watch it hit the surface

We gon' make the world shake, do it with a purpose

Drop top Benz, me and all her friends
