

Take Her Out

Alice In Chains

Here I am again
I feel time is draggin on
Aren't you getting tired of me?
Whinging overdrawn Faceless, blind
Want to take her out again
She's not just mine
Want to take her out again In a bodiless embrace
Thriving I have grown
Fickle changing grip replaced
Choking take it all
Faceless, blind
Want to take her out again
She's not just mine
Want to take her out again Dedicated, true to form
Still the only one
Only guarantee
Continue after I am done
Faceless, blind
Want to take her out again
She's not just mine
Want to take her out again
