

# Somebody Else (feat. Emeli Sandé)

## Robert Glasper Experiment

I got a little church to reach  
Every Sunday I craved the vision  
It's no difference to the rest, I got a new dress  
Im waiting on a big procedure,  
I need a new heart who got  
Dont care how much it cost you stop em  
Help me stop the hurting,  
Help me be a different person  
If Im somebody else.  
It never happen to me, if Im somebody else  
It never happen to me, if Im somebody else  
It never happen to me, if Im somebody else  
It never happen to me.  
I give, I give, I give on you,  
I give, I give, I give on you.  
Im waiting to work the .  
Say goodbye to everyone that love me,  
Im lying by my angel, Im lying by my name  
Im making a brand new story,  
Uh, Im feelin like a big that lie in,  
But I gotta throw the play to the fire  
Every day Im busy workin  
I hold up be a different person  
2 x If Im somebody else.  
It never happen to me, if Im somebody else  
It never happen to me, if Im somebody else  
It never happen to me, if Im somebody else  
It never happen to me.  
I give, I give, I give on you,  
I give, I give, I give on you.  
I give, I give, I give on you,  
If Im somebody else  
I give, I give, I give on you.  
It never happen to me  
I give, I give, I give on you,  
I give, I give, I give on you.  
I give, I give, I give on you,  
I give, I give, I give on you.  
It never happen to me,  
It never happen to me, ohh.  
Never happen, never happen to me
