Rhyme Travel

The Gift of Gab

Oodoop (stidamalood)?Yo yo

Same thing on the scene we never changing on the street really ain't that much Fiending and I'm craving for the freedom of creativity that comes From escaping into being undertaking the allegiance down under

And the way these lyrics be leaving you

Take you to a realm of astounding wonder

On the threshold of a less known way to get goin on a super rhyme style highway Window let em see there to appear but I really don't care I'm a do this my way Today find a new way to play with a few cadences I'm a parlay

This space and I'll still pace wait til the s reveal they self then I'm on my way

Many thoughts I'll lay

Many me cloned

MC's talk but they all are sayin

The exact same thing

The exact same things

And [?] the exact same way

And I wanna take a nap when I'm hearin that crap

Just getting on past his pay

I'm a make a new path through the math

Let's see how it sounds when I rap this way

Keep travellin'

Oodoop stidamaloodAll aboard

Do it like it's never been done

Or at least try to come

With enunciation

Just tryin to have fun

With a travellin hunt

For the style that you want to call forth

Take it farther

Why do you stall

I can see through all of your walls

In a box no longer got no limitations restraints or pauses at all

I have one destination called far

If you listen close it could alter

Your perception of what you think dope is

I'm a free mind and will leave you incarcertated

All sedated

Get a clear mind when the fog is faded

In the days of the sleep we all awaken

Maybe then you could check out what I saw

And keep on travellin...

Keep travellin'

Oodoop stidamaloodOodoop stidamalood
19 miles ahead of your thoughts
Best [?] mic skills better your [?]
Hear I come, ready or not
Been there, done that
Before blast off just ready to launch
E2M settin it off
Gettin it on
Just spittin [?]
And hittin you all with
Vision and always
Shittin on all your limits
And lawsKeep travellin

Oodoop stidamaloodKeep venom in ya'll Just keepin me goingFor us too much just isn't enoughToo much just isn't enough...
