

# Travel the World (Love Uses Time)

KeKe Wyatt

Why does this happens to girls like me again and again and again  
Why can't it be real love, real love  
You gave me your loving and took it away, you made my head spin  
This ain't the love I need  
If we could freeze time then maybe you'd be mine  
Loving you would be fine, cause the time wouldn't matter  
You can't stop the clock ticks, so we gotta stop this  
Baby let's just drop it, whoaI could have traveled the world,  
But I was somebody's girl  
Because I thought it was real  
That's how love uses time up  
I could have made lots of money, but love took it from me  
When you're in it you don't see  
How love uses time up  
What kind of girl you think I am  
To sit around and wait for you  
While my life is passing by  
I hold a ton of regret, wasted my time all on you  
That's why I can't stick around, stick around  
If we could freeze time then maybe you'd be mine  
Loving you would be fine, cause the time wouldn't matter  
You can't stop the clock ticks, so we gotta stop this  
Baby let's just drop it, whoaI could have traveled the world,  
But I was somebody's girl  
Because I thought it was real  
That's how love uses time up  
I could have made lots of money, but love took it from me  
When you're in it you don't see  
How love uses time up  
When I thought I found the one for me  
You came and changed everything  
I had my life invested, you messed around and maxed it  
Now I wish I had known at the timeI could have traveled the world,  
But I was somebody's girl  
Because I thought it was real  
That's how love uses time up  
I could have made lots of money, but love took it from me  
When you're in it you don't see  
That's how love uses time up  
I could have made lots of money, but love took it from me  
When you're in it you really you don't see

How love uses time up
