

# Six White Horses

Gillian Welch

Six white horses coming two by two  
Six white horses coming two by two  
Coming for my mother, no matter how I love her  
Six white horses coming two by two  
Woah now horses! Easy on the wheels  
Woah now horses! Easy on the wheels  
So broken hearted, up now they started  
Woah now horses! Easy on the wheels  
See them horses pulling on a rein  
See them horses pulling on a rein  
Sunshine and sorrow, yesterday, tomorrow  
Bedlam and Barlow Billy are their names  
Some bright morning what will you see  
Some bright morning what will you see  
Some bright morning looking on it coming  
Some bright morning what will you see  
There's six white horses coming after me  
Six white horses coming after me  
Pretty as a picture, certain as a scripture  
Six white horses coming after me
