

Dazed & Confused

Ruel

You came in swinging like a polo
I'll be feeling it tomorrow
No, I ain't seeing straight, hyperventilate
Knees begin to wobble
You cut my brakes and hit the throttle
I couldn't stop it if I wanted
Dizzy silhouette, makes me break a sweat
I'm in trouble Oh, I've been dazed and confused
From the day I met you
Yeah, I lost my head
And I'd do it again
Either I've seen the light
Or I'm losing my mind
There's something 'bout you
That's got me dazed and confused
Dazed
Dazed and confused
Dazed I bet you know just what you're doing
You're not the type that's used to losing
First, you build me up, then with just a touch
Leave me here in ruins
Something 'bout your eyes
I can't even walk in a straight line
Under the influence Oh, I've been dazed and confused
From the day I met you
Yeah, I lost my head
And I'd do it again
Either I've seen the light
Or I'm losing my mind
There's something 'bout you
That's got me dazed and confused
Dazed
Dazed and confused
Dazed I don't know if this is real life, real life
What happens if I open my eyes, my eyes?
Will I ever get my head right, head right?
I don't know if this is real life, real life Oh, I've been dazed and confused
From the day I met you
Yeah, I lost my head
And I'd do it again
Either I've seen the light
Or I'm losing my mind

There's something 'bout you
That's got me
That's got me dazed and confused
From the day I met you
Yeah, I lost my head
And I'd do it again
Either I've seen the light
Or I'm losing my mind
There's something 'bout you
That's got me dazed and confused
