

Superheroes

Edguy

City lights are calling - slowly coming back to life
Speeding in the fast lane - Mama let us waste no time
Devil in the doorway - selling any kind of hell
We're just coming out to play the game We never cry for love
We're superheroes
We are back where we belong
We never cry for pain
We're superheroes
Make a stand where we belong
Way to long I've tried to be what I could never be
For too long you've rolled the dice
But you can't control me
I ain't talking 'bout romance
You may fiddle I may dance
Anyway it's a just game we play We never cry for love
We're superheroes
We are back where we belong
We never cry for pain
We're superheroes
Make a stand where we belong We're superheroes
You gotta move to stay alive We're gonna rock the bash tonight
Cry for love
We're superheroes
We are back where we belong
We never cry for love
We're superheroes
We are back where we belong
We never cry for pain
We're superheroes
Make a stand where we belong
We're superheroes
